

I am writing in reference to the LPFM that is being proposed and may take priority over current FM translator service, thereby removing K-LOVE Radio. I find this disturbing because K-LOVE is an exceptional, national, family-friendly radio station that is choice #1 on my vehicle radio buttons. Because I listen to it 70% of the time I'm in the car, it keeps me centered and peaceful. I love the music and healthy christian messages. I proudly play K-LOVE with other people & kids in the car. I NEVER have to worry about lyrics, commercials, or negative messages. Please do not remove K-LOVE's ability to broadcast in my area, and across the country, because it is quite a comfort to know I can find them every time I'm traveling. Very sincerely, Becky Robinson
